*In an email sent to DESERT HERALD, the Jama'atu Ansarul Muslimina fi Biladi Sudan has threaten the Southern Kaduna militant group, Akhwat Akwop over the latters threat on Fulani residents of the area. The message was conveyed by the spokes man of the group, Abu Ja'afar. Below is the text of the email.*

We have received an information from a group that is well known of its terrorist and atrocities on Muslim in Southern Kaduna known as Akhwat Akwop on the 5th June, 2012 with the message that; a five days notice is given to all the Fulani Muslim communities to vacate their mother land or face deadly attacks. This is not the first time, it can be recalled that the same group openly claimed the responsibility upon the brutality of the aftermath of the presidential election of 2011 in that region (on killing women and children including burning Mosques and properties) which resulted to various refugee camps for many Muslims. We have also not forgotten the atrocities of Zamani Lakwot of the previous years.

Lastly, we are calling on all the Muslims to unite to terminate and retaliate on these terrorism. Any challenge to brothers and sisters in Islam of Southern Kaduna is also a challenge to the entire Muslim world, because the prophet saw said; believers are like a single body, if any part is troubled the whole body is troubled. Based on the Hadith it has become an obligation upon all of us to unite and face these infidels like the way they are united in fighting us. It can also be recalled that even of recent Thursday the 7th June, 2012, Ali Kwara was able to uncover the smuggling of weapons by a Custom Officer by the name; Jack Bot to give them as his contribution to the fight against Islam and Muslims, and we are aware that so many of them exist. And at the end of the day Jack Bot will be free so why do the Muslims fear to render their assistance in fighting these infidels. Their biggest agenda is to illuminate Islam and Muslims wherever they are.

Abu Jafar, on behalf of J.A.M.B.S.
