

In Arabic: Islamic State West Africa Province In the name of God, the most merciful, the most compassionate Thanks be to God who says: "Whoever has assaulted you, then assault him on the same way he has assaulted you" [2:194] and peace be on the messenger sent with the sword until the final day for people to worship only God without associating partners to him.

In Hausa: MESSAGE FROM JUNDUL KHILAFAT [soldiers of the caliph] TO THE PEOPLE OF BUNI We are aware of your atrocities and failed fight against the religion of Allah. You are killing our brothers even when we do not kill you. Your terrorism against us is increasing everyday, even though you know we don't attack civilians without a reason. If you see us killing or abducting anyone, that person or group must have done the same against us earlier. Therefore, our fight is against the government and its employees (army, police, CJTF, vigilantes) and any other person that supports them to fight us in whatever means. We will kill anybody that falls into this category. We warn you to desist from attacking us if you need peace.
