A rare glimpse in [#Iswap](#) [#BokoHaram](#) admin.

circulated a document seized on an insurgent... It testifies to the group's effort to administer, routinise and standardise.

The receipt is in the name of lswap and its zakat department. As

[@ajaltamimi](#)

tells me, "is it someone handing over zakat funds or receiving them?" Not clear the occasion, the currency, the tax base involved.
