**Message:** Integration with the Islamic State

**From:** Islamic State of West Africa

**To:** The Muslim Community in General and the  
West African Community in Particular

**Know this:**

**The Main Objective/Purpose of our Jihad:** To glorify Allah's word, by restoring Allah's way of Judgement on the servants of Allah and on Allah's Land.

**Among our objectives are the following:**

Protecting the Muslim's religion and defending their blood, their assets/property, and protecting their dignity against who threatens them. Also, this is a call to stop idolatry, polytheism and paganism, and oppression and a conversion to Theology, Islamic precepts and justice.

**Those we are up in arms against:** We are fighting against Idolaters and Polytheists, The Crusaders (Christians), and other non-believers. We fight against anyone who is opposed to the Religion of Islam, including those who are professing to be Muslims.

**Those whom we will not touch:** The blood of Muslims and their dignity. We are forbidden from touching their assets and property. Nothing of theirs is permitted to us, except that which the Shari'ah permits us to touch.
